The remarkable success of the paper in the past, as manifested by its large

and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us

towards the journal which greet us from all quarters, convinces the publishers that they are doing what they set cut to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, cutspoken on questions affecting the rights of the masses; battling for heal self-govern-

masses; buttling for local self-govern-ment and the largest liberty to indi-

viduals consistent with public good; laboring for a pure, honest and eco-nomic administration of government;

treating public matters dispassion-ately and employing language nateu-

ated to enlighten the reason of men-rather than influence their passions, and working for peace and the de-velopment of the refources of the ter-

velopment of the resources of the ter-ritory, instead of trying to create stric-and retard progress. With our in-creased facilities for gathering nows, both by telegraph and mail, the em-ployment of a larger number of our respondents in different sections of the country, and the better arrange-ment of all the many details of the establishment, we confidently promise to make the Salt Lake Dally Herallo a better paper than ever.

Bittor Post:

I have not a word to say about the facts or merits of my case. I wish it to be tried in the ordinary fair play especially towards the men charged with murder. This is supposed to be characteristic of American communities, but I expect no fair play on or before my tried. If the fast men and corrupt detectives who surround the Chromicle office and assume to run this city can prevent. It is infamous that public officers, who are paid by the community, should work Hightimately for private individuals and converse what ought to be honorable prosecution into multipant persocution. The articles published in the Chromicle of Isst Sunday shows how some of our detectives will invede private houses and try to frighten ignorant people. As for the arrest of Clemetaleaw, I have this to say: I do not know the man, and I make no statement as to my version of what transpired. I do not say whether his tas imony was correct or meorrect, but I do declare that he had no motion, so far as I can see, to conceal or pervert the truth, and that there is nothing in his evidence to indicate perjury. It looks to me as if his arrest is intended by the Chronicle and detectives to warn the citizens of San Francisco that they must not twiff to any facts that would even tend towards my exculpation.

Your End.

The Post, in another column, says: However improbable it may appear, in the face of the testimony given at the inquest on the hedy of the his Charles DeYoung, it is considently asserted by the friends of I. M. Kailech that at least ine Dends of I. M. Kanich User at I. a dozen witnesses will support testimony of Cleanethaw to effect that De Young did line the shot. The rumor is given for what worth, but there is no possible doubt such evidence will be offered and f part of the defense.
